1. Geological missions are at present investigating the possibilities of developing naphtha deposits in the following areas:

Hejdevica	(Bosnia, North of Tuzla)
Hidkowska	(Croatia, near Kutina)
Daruvar	
Kovska	

2. Geological missions are at present investigating the possibilities of developing methane in the oil shale areas of Gollu (sic) and Sisak.

3. A new coal mine has been opened at Resavica in the Senj area. Mines already functioning in the area are located at Seliste and Bugar.

4. The Visegrad Oil Refinery at Dobrun (Sheet 100/C2710), heavily damaged during the war, has now been repaired and resumed normal production of turpentine, colophony and resin oils.
